

I pay for my phone, they do not have the right to harassment me.  
Over Christmas I was getting 4 calls a day from a toll free #, twice during the day and once about 8:00pm & at around a little after 9:00 pm changing each day, no person on the line I would just hang up. So finally I called that # & it was discover card. I do have a discover card so they do have the right to call but 4 times a day. So I did complain, and they said to hang on the the phone till they came onto the line. Which I finally did do because we were on week 3. It was so they could sell me something. I told them to stop harassing me I was not interested & don't call again! But that was I Charge Card I have, which I am cancelling, but imagine if they ALL did that, even the ones you do not have. The poor elderly, rushing for the phone. As long as I pay the bill they should not have the right to harass me!  
I think the DO NOT CALL LIST is the greatest thing the gov has done for its citizens to protect them. Now we have to get them to function with the health ins!!!! COST!!!!!!  
I WILL VOTE OVER AND OVER FOR THE DO NOT CALL LIST AS IT IS TODAY, AND WILL BE PISSED OF IF IT CHANGES!!!!!!!!!!.
